

## OmniFund Developer Tools

---

Build and fully integrate our payment solution with extensive developer tools, support, and expert service.

## OmniFund Developer Tools

- + Links, Downloads, Plug-ins, and APIs
- + Training
- + Customization
- + Reliable Support
- + Knowledge Base
- + Scalability

### The Most Advanced Payment Platform Easily Integrated into Your System

OmniFund provides all the developer tools you need to customize your payment solution and get the features you choose set-up easily. We've streamlined the merchant onboarding process and give you access to the resources you need to get up and running as quickly as possible. We can start you off with a test account so you can see how everything will work for you.

### Expand Capabilities as Your Business Grows

Our payments platform is a flexible, scalable solution that allows you to add the features and options you need when you're ready for them. We provide the building blocks, and you can select from them to construct the solution that's right for you. New capabilities — from credit card processing and eChecks to virtual terminals and hosted payment pages — can be implemented at any time.

### Consultation and Support Services for a Seamless Integration

When you have questions, we can answer them. Our website includes a Knowledge Base of FAQs and tutorials, with videos and screenshots to make explanations easy to follow. We also provide dedicated, U.S.-based customer support. You can submit a ticket online to get issues resolved or to request personalized training.

### Access All the Tools You Need at Your Team's Convenience

In addition to the Knowledge Base, our website includes all of the APIs, plug-ins, documentation, and downloads you'll need for integration with your proprietary software, point of sale (POS) and eCommerce systems (such as a shopping cart). You can choose the deployment method that works best for you. Even if you don't have vast programming or IT knowledge, our service representatives can help you with set-up and implementation to get you up and running quickly.

## Select the Method Best Suited to You

HTTP API, SOAP Web Service,  
Hosted Payment Page

Magento, WooCommerce, X-Cart
